### Floor Protector Requirements

The Milan Piccolo Harmony Series requires a floor protector of non-combustible materials. The floor protector must extend under the heater, a minimum of 300mm in front of the door glass, and 100mm to either side of the heater. The minimum floor protector size for a wall setting installation is 820mm deep and 800mm wide.

### Seismic Requirements

The appliance and the floor protector shall be mechanically fixed to the floor itself. A provision has been made at the rear of the pedestal to fix through the two holes through floor protector and floor.

### Clearance Requirements

The Milan Piccolo Harmony Series, when installed according to these instructions, complies with the provisions of AS/NZS2918 : 2001 Appendix B - "Thermal Testing of Installation Clearances". No provision is given for installing this woodfire without a flue pipe shield.
